

THE GENTLE BREEZE

Triangle's Gentle Breeze is the largest, most ruggedly built portable fan on the market today. It quietly delivers a gentle breeze at distances up to 150 feet! It is so quiet you can easily carry on a normal conversation. It is easy to move for optimal breeze direction and is ideal for assembly lines, work areas, warehouses and sporting events.

Features

- Extra quiet 60dBa at 20' from the fan
- OSHA compliant woven wire guards
- Powder coat finish for resistance to weather and corrosion, indoors or out
- Single-phase and three-phase models available
- Ships completely assembled
- 20' grounded three conductor cord with molded plug

GENTLE BREEZE

Model	Volts	Phase	AMPS	Fan Weight	Shipping Weight
