# A growing choice for **growers.**

Triangle Engineering products are chosen repeatedly by some of the world's largest food producers to ensure the health of poultry and livestock. Engineered for optimal air flow and circulation, Triangle Fans ensure the health of animals — and boost ROI.

Replacement parts are in stock for immediate shipment and available for purchase online to get fans back in service quickly.

## DURABILITY

- Heavy gauge galvanized frame
- Factory-tested for continuous use
- Totally Enclosed motors

## SERVICEABLE

- Made in the USA
- Replacement parts available online 24/7
- Available for immediate shipment

## PRODUCT SPOTLIGHT

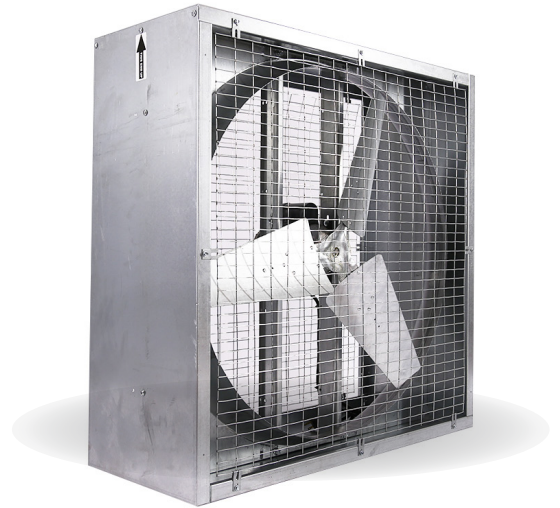

# Fans engineered for **agriculture.**

Agriculture, horticulture, and livestock industries have something in common: products that grow and are dictated by nature, requiring specific allotments of time that cannot be altered. It will always take a certain amount of time to grow a cow or apple, and what is produced must be safeguarded with proper air circulation and temperature control.

### **SLW Series & Discharge Cone**

- Slanted housing sheds water and snow buildup on building exteriors
- Rolled inlet venturi for efficient air flow
- Single phase fans are factory wired 230 volt and provided with a power cord and a molded plug
- Three phase and single phase models available

### **PFG Series 4815D-460**

- Rugged heavy gauge galvanized housing, frame and blade
- Galvanized welded bird screen on both front and back
- Rolled venturi for efficient air flow
- Totally enclosed motor
- Single phase fans are factory wired 230 volt and provided with a power cord with molded plug
- Three phase and single phase models available
- Belt drive models available

**Installation of Triangle Poultry Fans  
resulted in reported DOA's of less than 1%.**

## PRODUCT SPOTLIGHT

### Industrial Exhaust Fan Package

- Bronze powder coated rolled inlet venturi for efficient airflow
- Rugged heavy gauge galvanized housing
- Available in sizes from 24" to 60" blade diameter
- Available with ODP and TE motors
- Belt driven fans feature our "X-Wing" belt tensioner for low maintenance and extended belt and motor life

Success comes from precision climate control. Durability, airflow, and energy efficiency make the our Industrial Exhaust Fan Package the perfect choice for optimal ventilation in any greenhouse or industrial building. Triangle's Industrial Exhaust Fans are designed to meet extreme exhaust airflow needs.

## PRODUCT SPOTLIGHT

### TP High Velocity

- Standard sizes are 24," 30," 36" and 42"
- High efficiency, non-overloading airfoil cast aluminum blades
- All welded, all steel construction
- Heavy gauge, expanded metal safety guards
- Direct drive
- Totally enclosed motors
- Durable polyester powder coated finish
- OSHA guards available

## Tough and powerful.

Triangle's TP Series high velocity direct drive air circulators are easily installed units that offer economical, efficient air cooling for almost any kind of location: Stockyards, barns, greenhouses, live poultry in trucks and hundreds of others. The TP fan produces air circulation that will keep an area from becoming stagnant with hot or polluted air.
