# A better made fan for a better **bottom line.**

Triangle Engineering manufactures durable, portable, and serviceable fans that cool people, places, and products worldwide. Triangle Fans are designed for heavy-duty usage and built to last for decades. All fans are completely engineered, assembled and

factory-tested in the USA, and our products meet all OSHA requirements.

Replacement parts are in stock for immediate shipment and available for purchase online to get fans back in service quickly.

## DURABILITY

- Thicker steel barrel
- Signature profile for higher rigidity

## SERVICEABLE

- Made in the USA
- Replacement parts available online 24/7
- Available for immediate shipment

## PRODUCT SPOTLIGHT

# The workhorse that works **harder.**

Effortless mobility and precise directional airflow make the rugged HBD HeatBuster™ a top choice for outdoor venue and event cooling. Possibly the longest lasting fan we produce.

TEAM TRIANGLE FAVORITE  
Our choice for cooling in our factory

HBD4815

### HBD 4815 HeatBuster™

- 90° Tilt with Positive Tilt Lock Knob
- 19,460 CFM
- Belt Drive with Automatic Belt Tensioner
- 36" 42" or 48" Blade
- Heavy Gauge Powder-coated Steel Barrel

# Slim, but **mighty.**

**The equipment and event rental industry favorite!** Compact cooling is possible with the HeatBuster™ Slim. A belt drive fan with all the pros of the traditional HeatBuster™ Series, but comes with a few more: better storage capability *and* decreased weight. The lightest HeatBuster™ fan we produce, the Slim weighs 36% less than wide body options. Designed for a smaller footprint, it offers just as much comfort as our other cooling solutions.

### HeatBuster™ Slim

- Belt Drive with Automatic Belt Tensioner
- 36" or 42" Blade
- 16.5" Barrel Depth
- OSHA Approved Spiral Wound Guards
- Single and Two Speed Motors

# Heavy-duty cooling with a lighter **price.**

Triangle Portable Coolers are the perfect balance of high-quality durable materials, heavy duty usage design, and ease of maneuverability – for a longer service life. We also engineer blade pitch to maximize airflow for each size and horsepower.

Our line of portable direct drive fans are a great choice for economy and serviceability. Put our tough fans to work anywhere a high volume of air movement is needed.

**PRODUCT  
SPOTLIGHT**

## **Portable Cooler™ HD Model PC4815**

- Direct Drive
- 36" 42" or 48" Blade
- Switch Guard
- Deep Pitched Blades for Maximum Airflow
- Heavy Gauge Steel Barrel

## PRODUCT SPOTLIGHT

### HVD Cradled JetAire™ High Velocity Fan

- Moves air 100' or More
- Rated for Indoor or Outdoor use
- Tilttable Head for Precise Directional Airflow
- 30" Blade
- Totally Enclosed Motor
- Optional Mister Kit
- Polypropylene Barrel Colors:  
Green or Gray

## Does that fan come in **indestructible?**

The answer to that question: pretty close. This air moving solution engineered by Triangle is made with polypropylene: a tough polymer with valuable fatigue resistance properties that give longevity. With the ability to retain shape after years of use, the HVD will move air for decades.

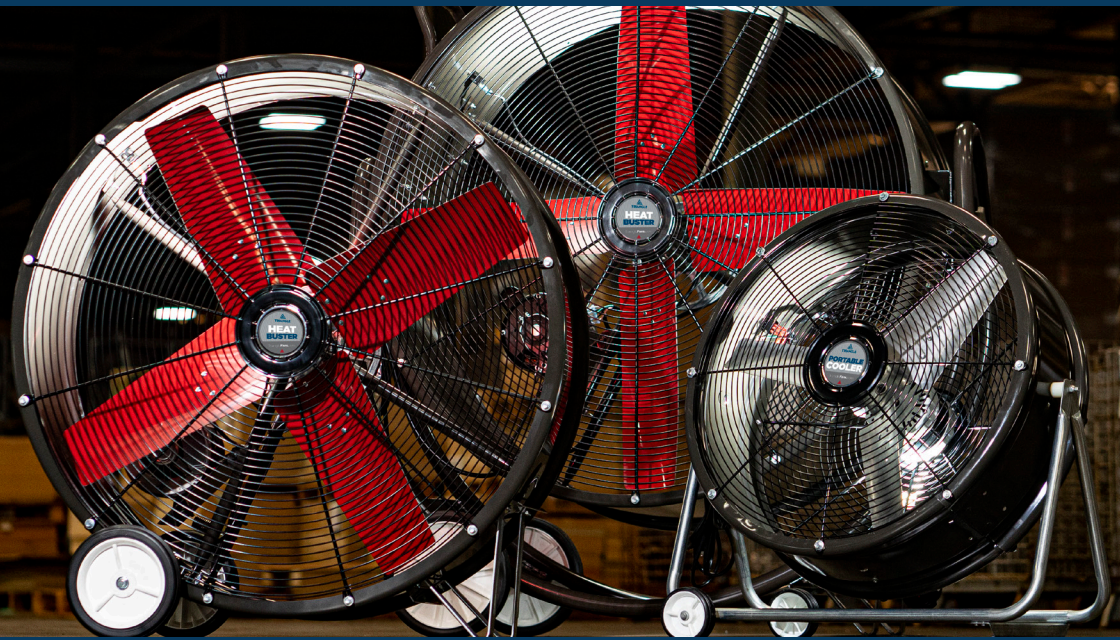

Triangle's HVD offers a virtually indestructible polypropylene barrel in two colors.

HVD is a high velocity cradle-mounted fan that moves large concentrations of air from 100' or more with unmatched precision.
